Vikki Reynolds is a Consultant, Instructor and Supervisor. She plays a leading role in building communities in a spirit of solidarity, putting ethics at the forefront.

In this workshop Vikki will share an anti-oppressive and decolonizing approach for justice-doing in our community work, exploring ways of addressing power, centering ethics, critically engaging with language and shouldering each other up with sustainability.

It will be a day of small groups and spaces to talk, with some wee lecture-y bits, but no PowerPoints.
